

2018 DUTY OF CARE AWARDS SHORTLIST ANNOUNCED
Winners to be announced on 17th May in Chicago

4 April 2018 – With entries from NGOs to airlines, educational institutions to global corporate programmes, the International SOS Foundation 2018 Duty of Care Awards shortlist is revealed today. This year's theme for the awards is **Empowering Sustainability & Resilience** and attracted over 35% more entries than last year, from 42 countries and 59 sectors. The awards honour best practices in mitigating travel, health and security risks for workers crossing borders or posted in challenging or fragile locations.

Laurent Fourier, Director of the International SOS Foundation, comments, *“We are greatly encouraged in our endeavours to further the Duty of Care agenda. We have seen a significant increase in interest and entries in our third year running these prestigious awards. This reflects a growing global drive to improve practices across sectors. ‘Sustainability’ is one of the three new categories year, and it has been one of the most popular. Year on year, organisations are raising the bar in Duty of Care initiatives. Whether protecting a global workforce of business travellers or workers offshore or in remote locations, our panel of judges¹ have been very impressed with the high level of expertise and commitment to strategic implementation.”*

The winners of the 2018 Duty of Care Awards will be announced at a ceremony during a Gala Dinner in Chicago on 17 May 2018. To learn more visit www.dutyofcareawards.org.

About International SOS Foundation

Established in 2011, the International SOS Foundation - Ambassadors for Duty of Care - has the goal of improving the safety, security, health and welfare of people working abroad or on remote assignments through the study, understanding and mitigation of potential risks. The escalation of globalisation has enabled more individuals to work across borders and in unfamiliar environments; exposure to risks which can impact personal health, security and safety increases along with travel. The Foundation is a registered charity and was started with a grant from International SOS. It is a fully independent, non-profit organisation. For more information on Duty of Care and the International SOS Foundation, please visit <http://www.internationalsosfoundation.org/>
